The Development Security and Operations Industry: Current Status and Future Prospects

Rising need for rapid and cost-effective software delivery and rising focus on security and compliance

SURREY NORTH, BRITISH COLUMBIA, CANADA, January 24, 2023 /EINPresswire.com/ -- Development, security operations

[Development, security, and operations](#), also known as DevSecOps, automate the integration of security at each stage of the software development lifecycle, from initial design through integration, testing, deployment, and software delivery.

Emergen Research Logo

Development, Security, and Operations (DevSecOps) market size reached USD 2.55 Billion in 2020 and is expected to register a revenue CAGR of 32.2% during the forecast period, according to latest analysis by Emergen Research. Rising need for rapid and cost-effective software delivery and rising focus on security and compliance are key factors projected to support market revenue growth between 2021 and 2028

In addition, increasing adoption of DevSecOps among organizations for strengthening brand image and improving customer loyalty will continue to boost revenue growth of the market going ahead. DevSecOps provides enterprises with the assurance that their apps are as safe as feasible. While no app is completely secure, DevSecOps deployment ensures that cybersecurity is the main focus of all development activities. Companies can use this approach to gain more confidence in the apps, as well as strengthen the brand image and improve customer loyalty. This is expected to boost revenue growth of the market over the forecast period.

Report Scope:

Forecast Period : 2021-2028

CAGR: 32.2%

Base Year: 2021

Number of Pages: 250

The competitive landscape of the report has been formulated by considering all the vital parameters such as company profiling, market share, recent developments and advancements, gross margins, product portfolio, revenue generation, financial standing, market position, and expansion plans. The report also discusses in detail the recent mergers and acquisitions, joint ventures, collaborations, product launches and brand promotions, agreements, corporate and government deals, and partnerships, among others. The report also sheds light on the recent technological developments and product advancements in the Development Security and Operations market.

Furthermore, the report provides details about the new players entering the market, entry-level barriers and offers strategic recommendations to overcome those barriers to gain a substantial industry presence.

Top Companies Operating in the Development Security and Operations Market and Profiled in the Report are:

Google LLC, Microsoft Corporation, Cloudflare, Inc., International Business Machines Corporation, Ca Technologies Inc., Micro Focus International plc, Synopsys Inc., Fastly, Inc., Array Networks, Inc., and Qualys, Inc.

The report is an investigative study of the technological developments and product advancements, along with a regional analysis for each product and application offered in the market. The fundamental objective of the report is to give an insight into the workings of the Development Security and Operations industry. It provides an accurate and strategic outlook of the market with a thorough assessment of the segments and sub-segments of the market. It provides a panoramic view of the industry to offer a deeper understanding of the global industry.
