

Logicalis Selects CoreStack to Power Its Cloud Management Portal

The strategic partnership will provide Logicalis customers with an industry-leading NextGen Cloud Governance solution

BELLEVUE, WASHINGTON, UNITED STATES, January 24, 2023

/EINPresswire.com/ -- CoreStack, a global multi-cloud governance

provider, and Logicalis, a global

technology service provider, today

announced a strategic partnership to

provide customers with an industry-

leading cloud governance solution. The

partnership extends Logicalis' capabilities to scale, simplify and accelerate digital transformation for manufacturing, healthcare, and supply chains, addressing a variety of cloud governance use cases.

“

CoreStack's NextGen platform provides transparency to help customers be more cost-effective, compliant and secure and to achieve seamless operations with increased availability.”

Stephen Buhagiar, VP of Global Solutions at Logicalis

Logicalis Selects CoreStack to Power Its Cloud Management Portal

As part of the partnership, CoreStack's NextGen Cloud Governance platform is integrated with the Logicalis Cloud Management Portal (CMP) to power the Production Ready Cloud (PRC) solution that caters to enterprises looking at adopting a cloud-first strategy. The Cloud Management Portal, designed on a multi-tenant architecture, provides visibility and insight into customers' cloud consumption, governance, and security posture.

CoreStack NextGen Cloud Governance helps customers and partners mitigate risk, accelerate delivery, experiment more, optimize performance, and innovate. It gives enterprises the capabilities and confidence to accelerate

their digital ambitions, enabling them to capitalize on the opportunities that matter more quickly and easily. This NextGen governance solution enables proactive multi-cloud governance and 360-degree visibility across financial management (FinOps), security operations (SecOps), and

cloud operations (CloudOps) in a unified dashboard.

Stephen Buhagiar, VP of Global Solutions, said, "We are excited to partner with CoreStack to help customers scale and accelerate their digital journey. CoreStack's NextGen platform provides transparency to help customers be more cost-effective, compliant and secure and to achieve seamless operations with increased availability."

The CoreStack platform integrates directly into the Logicalis Digital Fabric platform, which helps customers benchmark their business capabilities against industry averages and provides real-time visibility and actionable insights across the performance of their digital ecosystem.

CoreStack's AI-powered multi-cloud governance solution has provided customers with transformational outcomes with its NextGen platform, such as a 40 percent increase in cloud operational efficiencies, a 50 percent decrease in cloud costs, and 100 percent compliance with security standards.

"CoreStack instills cloud confidence among customers by providing them with actionable insights," said Suren Singh, Vice President of Partnerships and Alliances at CoreStack. The combination of Logicalis' global expertise in delivering digital managed services and CoreStack's continuous and autonomous governance platform provides the critical foundation to help organizations drive scale, agility, and productivity across hybrid and multi-cloud environments."
