

Ginseng Market to Reach US\$948.3 million by 2027 - IndustryARC

The proliferating application of ginseng for the treatment of neurodegenerative and immunological ailments is further propelling the growth of this segment

HYDERABAD, TELANGANA, INDIA, January 24, 2023 /EINPresswire.com/ -- IndustryARC, in its latest report, predicts that [Ginseng Market](#) size is estimated to reach \$948.3 million by 2027, growing at a CAGR of 4.2% during the forecast period 2022-2027. Ginseng applies to 11 distinct assortments of a short, slow-growing plant with fleshy roots. Ginseng can re-establish and improve well-being. Thus far, several saponins have been recorded as constituents of Panax ginseng, also termed Korean ginseng. Ginseng roots are well recognized for their soaring content of saponins, ginsenosides, phenolic compounds, inclusive of carbohydrates and carotenoids. ginseng polysaccharides have been recorded to have immunomodulation, antitumor, antiradiation, antioxidant, and hypoglycemic actions (Luo and Fang, 2008, Park et al., 2011, Suzuki and Hikino, 1989, Zhang et al., 2009). Saponins, isolated ginsenosides which are existing in ginseng possess antihyperglycemic and anti-obesity actions in db/db and ob/ob mice (Attele et al., 2002).

The expanding interest in organic health supplements including Korean ginseng with saponins to avert the hazard of chronic ailments and keep up health and wellness is set to drive the Ginseng Market. The trend of healthy hydration and functional foods and beverages across the planet is set to propel the growth of the Ginseng Market during the forecast period 2022-2027. This represents the Ginseng Industry Outlook.

Key takeaways:

Market Research Reports, Business Consulting
Services & Analytics

This IndustryARC report on the Ginseng Market highlights the following areas -

1. Geographically, Asia-Pacific Ginseng Market accounted for the highest revenue share in 2021 and it is poised to dominate the market over the period 2022-2027 owing to the accelerated application of ginseng extracts in food product manufacture and growing interest in health supplements involving Korean ginseng with saponins in the Asia-Pacific region.
2. Ginseng Market growth is being driven by the surging acceptance of consumers of Asian and Oriental flavors and the proliferating demand for Korean ginseng with saponins for health care and treatment of ailments in Asia in countries like Korea and China. However, The profiles of malonyl-ginseng saponins are dissimilar amidst distinct species, and owing to their imbalance and the dearth of appropriate reference compounds, deciding their profiles introduces a challenge and this is one of the major factors hampering the growth of the Ginseng Market.
3. Ginseng Market Detailed Analysis on the Strength, Weakness, and Opportunities of the prominent players operating in the market will be provided in the Ginseng Market report.
