

HoduSoft Shortlisted By siliconindia Magazine as 10 Most Promising CPaaS Solutions Providers 2023

HoduSoft named as a top 10 Most Promising CPaaS Solutions Provider by siliconindia Magazine for 2023, demonstrating their innovative and communication services.

DENVER, COLORADO, UNITED STATES, January 24, 2023 /EINPresswire.com/ -- HoduSoft, one of the market leaders in the Unified Communications (UC) software industry, has been shortlisted by siliconindia Magazine as the '10 Most Promising Communications Platform as a Service (CPaaS) Solutions Providers 2023'. siliconindia is a popular US-India magazine that provides the most relevant content by projecting stories and updates about entrepreneurs, businesses, and technology trends from different sectors.

With years of experience and industry know-how, HoduSoft has built various innovative software products for call/contact centers, business process organizations, and service providers. These products not only provide powerful communications experiences but are also backed by enterprise-grade security. Some of the key products offered by HoduSoft include:

HoduCC- [Contact Center Software](#): Offering an Omni-channel approach to help businesses create pleasant experiences for their customers.

HoduCC- [Call Center Software](#): Offering everything starting from automatic dialers to advanced calling and analytics tools that today's modern enterprises require for the efficient working of their call centers.

HoduPBX - [IP PBX Software](#): Allowing businesses to access advanced internet telephony to enjoy reliable and high-quality calls at reduced costs.

HoduBlast (Voice & SMS Broadcasting Software): The advanced Voice and SMS broadcast software help businesses increase their reach effortlessly in a few clicks.

Being a leading Communications Platform as a Service (CPaaS) Solutions Provider, HoduSoft allows businesses to add real-time communication features to support outbound/inbound voice calls, WebRTC-based calling, text messages, on-demand SIP trunking, social media messaging, multimedia and video messaging, and more.

Speaking about being shortlisted as the 10 most promising communications platform as a service solutions providers, HoduSoft's Co-Founder & Chief Business Development Officer, Kartik Khambhati said, "We are delighted to know that we have been recognized as one of the top 10 most promising CPaaS solutions providers by a well-renowned magazine- siliconindia. We feel proud to have a team of experts who are passionate to bring innovation and intelligence together to create seamless, secure, and unified communication products. Our comprehensive product suite is designed to help businesses whether big or small, meet all their communication needs".

The concerned person from siliconindia said, "We work with an intent to help and inspire executives from the different industries by sharing and bringing them industry insights from C-Level Executives and decision-makers. Following the success of our earlier editions, we have come up with our 1st annual edition showcasing 'Communications Platform as a Service (CPaaS) Solutions' from diverse fields. After analyzing more than 100 Communication Platform Companies, our in-house Market Research and Editorial team along with "C" level Executives from various industries have found HoduSoft one of the most promising Communications Platform as a Service (CPaaS) Solutions Providers in 2023. We are glad to feature HoduSoft as 10 most promising CPaaS providers in 2023".

Kartik Khambhati further added, "We will continue to create innovative products and come up with advanced features that can help today's businesses achieve their goals. Also, I would like to thank the siliconindia team for recognizing us to be the most promising CPaaS providers in 2023. This is surely a great motivation factor for us to work and focus more on creating such solutions."
