

Global Pea Protein Isolate Market worth US \$1,159 million by 2027 at a growth rate of 8.9% - IndustryARC

The nutritional profile of pea protein isolates to maintain satiety for a longer period of time along with the presence of BCAA has been a key market driver.

HYDERABAD, TELANGANA, INDIA, January 24, 2023 /EINPresswire.com/ -- IndustryARC, in its latest report, predicts that The [Global Pea Protein Isolate Market](#) size is estimated to reach \$1,159 million by 2027.

Furthermore, it is poised to grow at a CAGR of 8.9% over the forecast period of 2022-2027. Pea Protein isolates are processed, as split yellow peas typically grow in North America and Europe, the process would remove the outer shell, and then it would be milled into flour. After which, other ingredients such as fiber and starch are separated through chemical processes. Ultimately, pea protein would be distilled into a white precipitate, known as protein powder. Hydrolysed protein powder is also used, and is a solution derived from the hydrolysis of protein into components of amino acids and peptides. Pea protein isolates have all the necessary amino acids- or the BCAAs which are extremely useful in bodybuilding as a protein supplement. Furthermore, since it is a plant-based protein it is gluten-free and lactose-free, which allows for greater market penetration. The nutritional profile of pea protein isolates to maintain satiety for a longer period of time along with the presence of BCAA have been identified as the key drivers for the Global Pea Protein Isolate Industry for the projected period of 2022-2027.

Key takeaways:

This IndustryARC report on the Probiotics Dietary Supplements Market highlights the following

areas -

1. Geographically, North America's global pea protein isolate held a dominant market share in the year 2021. It is owing to the widespread demand catered from the various countries such as USA and Canada. Additionally, the trend for veganism has been highly adopted in the regions of the west, which will particularly help the market growth.
2. The nutritional profile of pea protein isolates to maintain satiety for a longer period of time along with the presence of BCAA has been a key market driver. However, close competition from other vegan-based protein isolates presents itself as a unique challenge.
3. A detailed analysis of strengths, weaknesses, opportunities, and threats will be provided in the Global Pea Protein Market Report.
