

5G Standalone Roaming Deployment constraints worry Mobile Operators

Latest 5G Roaming Report from ROCCO reveals weaknesses in the 5G Roaming standalone possibilities of Mobile Operators

LONDON, GREATER LONDON, UK, January 24, 2023 /EINPresswire.com/ -- [ROCCO](#) (The Roaming Research and Consulting Company) has just released its annual report on [5G Roaming](#). Among other challenges the deployment constraints faced by Mobile Operators are vast and varied. This report contains a thorough discussion of strategic aspects related to 5G Roaming. This publication is a perfect guide for Mobile Operators Roaming teams that are planning to implement 5G SA or 5G NSA. Also, vendors can understand better what challenges Mobile Operators are currently facing and how they can support them. The Strategic Analysis version of this report contains feedback from 78 MNOs across 53 countries and the participation of BICS, Cellusys, Comfone, SecurityGen and Vodafone Carrier & Partner Services.

Considering the increasing relevance of 5G Roaming, this publication addresses the following questions:

“

91% of MNOs Strongly Agree that its hard to fully benefit from 5G services with Roaming in NSA mode”
ROCCO 5G Roaming Report

When MNOs estimate that they will launch 5G NSA & 5G SA Roaming?

What are the main challenges and opportunities of 5G SA Roaming for MNOs?

Which enterprise sectors have the biggest interest in 5G SA Roaming?

What MNOs think about BCE and its implementation?

How MNOs see vendors supporting them for 5G

Roaming?

What solutions for 5G SA are vendors offering?

What challenges are vendors facing in the delivery of 5G Roaming SA solutions?

The 5G race is ongoing and the opportunities derived from 5G Roaming are emerging. This report is a guide for operators that want to know better what their fellow MNOs have experienced with 5G deployments and for vendors that want to address operators' needs in 5G Roaming.

ROCCO also offers in depth [ROCCO U 5G Roaming Training](#).
