## About The Author

Author Aaliyah Moore is a self-published author. Aaliyah, who spent most of her childhood being moved around between family and friends, believed that the untimely death of her father—a tragedy that sent her mother into a depressive state marked the beginning of her adult life at a very young age. Aaliyah understood life and its uncertain nature from her own experience, and she bleeds that truth into her poetry out of her love of writing. She developed a love of poetry at a very young age. She has always been drawn to writing that is emotionally charged. Aaliyah's writing aims to make those dealing with severe pain feel genuinely heard and understood.
