

Josephine Draycott's 'Who Knew The Storm - The New Generation' is available now

NEW YORK, UNITED STATES, January 27, 2023 /EINPresswire.com/ -- About the Book

The author, Josephine, has written this book as a sequel to "Who Knew the Storm," she takes the characters from that novel on some new and unexpected adventures. The plot is loosely based on Frances Hodgson Burnett's well-known children's book, "The Secret Garden."

It is a fascinating journey into a strange world of pseudo-science-fiction fantasy, blending classic works of literature with film, music, and art, all of which are significant to the author. The characters of this amazing tale that takes place over two parts and is full of twists and turns live, lose others and sometimes themselves, fall in love, and discover that "everything is connected," as the great Douglas Adams said. This makes for a fascinating read.
