

Cannabis Training University Earns IACET (ANSI) Accreditation

Cannabis Training University Earns IACET (ANSI) Accreditation.

First Online Cannabis School to Issue Internationally Accepted IACET Credits.

DENVER, CO, UNITED STATES, January 24, 2023 /EINPresswire.com/ -- On January 1st, 2023, the International Accreditors for Continuing Education and Training (IACET) announced their accreditation of Online Training Providers (OTP), the parent organization of [Cannabis Training University](#) (CTU). This means that Cannabis Training University may now issue CEU credits for all their popular cannabis career training courses.

UNIVERSITY

Cannabis Training University becomes the first IACET/ANSI accredited cannabis college!

“

It is a great honor to be the first online cannabis college that is truly accredited. This accreditation further solidifies Cannabis Training University as the world leader in cannabis education.”

Jeff Zorn-CEO

“It is a great honor to be the first online cannabis college that is truly accredited,” said Jeff Zorn, CTU’s CEO. “Since IACET is recognized as the official standard for continuing education and training (CE/T) all over the world, our CEUs and accreditation will really mean something to our students and their employers.”

“IACET accreditation is no easy task,” said Karen Getchell, CTU’s Director of Content Development. “We needed to show that we’ve put together cannabis training programs that both addresses the learners’ needs and proves those needs have been met.”

CTU is meeting IACET’s standards with flying colors. “Not only is our [cannabis school accredited](#), but students love our online programs,” said Jenifer Marks, Esq., CTU’s Creative Director and Accreditation Officer. “On average, students give our [cannabis career training programs](#) a 4.59 on a scale of 1 to 5. That’s important to Cannabis Training University!”

Cannabis Training University offers cannabis career training programs in cannabis cultivation, dispensary operations, how to start a cannabis business, cannabis cooking, cannabis extraction, budtender certifications and more! CTU even has more online cannabis courses coming soon as well. Students are awarded IACET CEU credits when they successfully complete their online cannabis job and business training courses.

About Cannabis Training University:

Cannabis Training University, headquartered in Denver, Colorado, is the leading online source for cannabis education. Founded in late 2009 by Jeff Zorn, CTU began as a series of live seminars across the United States. After a year of highly successful seminars, Cannabis Training University migrated to an online format to give students everywhere access to CTU's expansive cannabis career content at an affordable rate.

The CTU faculty and staff includes leading cannabis attorneys, accountants, world-renowned cannabis horticulturists, dispensary managers, budtenders, point of sale software companies, cannabis chefs, and cannabis business owners and vendors.

First to market in the cannabis education space and at the forefront of the cannabis education movement, CTU provides valuable cannabis career and business training to students all over the globe. In the past year, many thousands of students in the US, Canada, and other countries have successfully completed Cannabis Training University training programs. Over 70,000 students to date have successfully completed training at CTU, the most of any online cannabis college worldwide.

About IACET:

The mission of the International Accreditors for Continuing Education and Training (IACET) is to accredit providers around the world that deliver quality learning and inspire continuous improvement. As the voice of Continuing Education and Training, IACET is an international standard development organization that provides a framework for learning process excellence. IACET fosters connections through accreditation by establishing solutions for the continuing education and training industry by engaging community, encouraging collaboration, and promoting service to adult learners.

IACET developed the original Continuing Education Unit (CEU).

Today, IACET ensures that providers of continuing education and training can prove they provide high-quality instruction by following the ANSI/IACET 1-2018 Standard for Continuing Education and Training through a rigorous accreditation process.

The Standard is a universal model for learning process excellence. It defines a proven model for developing effective and valuable continuing education and training (CE/T) programs by measuring a provider's training program from procedure to process to result.

Because the ANSI/IACET Standard focuses on how continuing education and training programs are developed - not what they cover - it provides a certifiable framework of researched and proven best practices that can be applied across disciplines and industries. It measures all aspects of a CE/T provider's program development across nine nationally recognized categories.

This has allowed for the ANSI/IACET Standard for Continuing Education and Training to be recognized as the official standard for CE/T in the world.
