

# Auditchain Labs and blocz to Offer Pacioli Node as a Service Infrastructure to Investors, Accountants, Professionals

*blocz, a provider of Web3 and blockchain infrastructure, will offer Pacioli Node as a Service to end users and join the DCARPE Alliance Association as a member.*

ZUG, ZUG, SWITZERLAND, January 25, 2023 /EINPresswire.com/ -- [Auditchain Labs AG](https://auditchain.com/), (<https://auditchain.finance>) the developer of the world's first and only financial disclosure and decentralized external Proof of financial State validation infrastructure announced today that it has entered into a collaboration with blocz who will offer the Pacioli Node as a Service to end users.

blocz will join the DCARPE Alliance Association as a member and offer liquidity providers, investors, accountants and professionals the ability to subscribe to Pacioli Node hosting and RPC service levels that remove the technical friction of installation, operation and maintenance typically associated with mining and validation hardware and software.

“

Jason Meyers, Lead Architect of Auditchain Labs stated: Collaborating with blocz makes it really easy for accountants, professionals and investors to contribute trust to the Auditchain Protocol.”

*Jason Meyers*

Lee Norvall, Co-Founder and CEO of blocz stated: “Providing this service is a big opportunity for infrastructure providers. The crypto space needs alternative forms of assurance. Decentralized methods represent the best path. We are excited to assume a role on the Auditchain Protocol and be a part of this effort”.

The [Pacioli Logic and Reasoning Engine](#) is the Proof of Financial State external validating node on the Auditchain Protocol. Enterprises and financial intermediaries can submit to external validation of their financial and operating condition and give comfort to their stakeholder

communities about solvency and performance without the need for a centralized assurance provider.

Jason Meyers, Lead Architect of Auditchain Labs stated: We are excited about the collaboration with blocz. This removes a lot of friction and accelerates adoption of the Auditchain Protocol. Collaborating with blocz makes it really easy and convenient for anyone to contribute trust to decentralized financial reporting and external validation”.

Call for applications

Applications to subscribe are now being accepted for the first 250 public beta versions of Pacioli Node as a Service provided by blocz.

[APPLY NOW!](#)

Forward thinking accountants and professionals can become early adopters of the new Web3 accounting, financial reporting and assurance economy!

About Auditchain Labs AG

Auditchain Labs AG (<https://auditchain.finance>) is the developer of the world’s first decentralized accounting, audit, financial reporting and analysis protocol that automates financial disclosure and provides proof of state validation on the world’s business and financial information.

Auditchain Labs AG is a founding member of the DCARPE Alliance Association and is leading the development of the Auditchain Protocol with other members of the Alliance.

About blocz

blocz is a leading provider of decentralised edge and private cloud infrastructure. blocz delivers the next generation of dApps, dWeb and Edge applications allowing organisations and developers to deploy, run and scale based on demand and growth.

About DCARPE Alliance Association

The DCARPE Alliance Association is a global organisation consisting of members of the accounting, audit, financial reporting, legal, blockchain, investment, standard setter and regulatory community. The purpose of the Alliance is to adopt standards, provide education, drive technology innovation and promote the adoption of continuous audit and real time digital financial reporting using the Auditchain Protocol.
