

# eHealth Technologies Appoints Anurag Sinha as Vice President Of Product Management

*Sinha brings decades of high growth experience that will accelerate eHealth Technologies' next phase, to be the world's leading health care & analytics company*

ROCHESTER, NY, UNITED STATES, January 24, 2023 /EINPresswire.com/ -- [eHealth Technologies](https://www.ehealthtechnologies.com), a leading health care technology and analytics company, today announced the appointment of Anurag Sinha as Vice President of Product Management.

“

Anurag is a recognized health care technology executive who has a proven record of delivering innovative products that make a true difference for customers and patients”

*Dan Torrens, CEO, eHealth Technologies*

In this new role, Sinha will work closely with CEO Dan Torrens, along with the product development team to bring innovative solutions to our customers to improve the clinician and patient experience.

eHealth Technologies is trusted by the top health systems across the United States, including eight of the top 10 U.S. News and World Report hospitals and 50 of the top 100 Newsweek Health Systems. In 2022, the company reached another major milestone helping over 350,000 patients get the help that they needed as quickly as possible. “We are focused on improving the patient experience” said Dan

Torrens, CEO, eHealth Technologies. “eHealth Technologies ensures that patients have a meaningful first appointment as quickly as possible so that they can get the treatment that they need and get back on the road to recovery.”

“Anurag is a recognized health care technology executive who has a proven record of delivering innovative products that make a true difference for customers and patients,” said Torrens. “We have big plans for 2023 and are extremely pleased to have recruited someone of his caliber.”

Sinha comes to eHealth Technologies from NAVEX, the global leader in risk and compliance software, where he was Vice President of Product. He spent nine years at Cerner Corporation (now part of Oracle) where he quickly rose up the ranks taking on critical roles and responsibilities in strategy, operations, product management, software development, and sales.

Earlier in his career he was focused on population health and data analytics.

"I'm passionate about using technology to solve healthcare problems and improve patient outcomes," said Sinha.

###

eHealth Technologies is a leading health care technology and analytics company that advances the delivery of life-altering care.

We do this by quickly gathering and organizing medical histories for patients who need immediate help so that they can have a meaningful first appointment and get back on the road to recovery.

Our team of experts take great pride in working behind the scenes to help millions of patients benefit from faster access to lifesaving medical services ranging from cancer care to organ transplants to emergency care.

We have helped over 2.5 million patients; and continue to make a difference in hundreds of thousands of lives every year and are trusted by the top health systems throughout the United States.
