The dry fruit market refers to the industry that produces and sells dried fruits such as raisins, apricots, dates, figs, prunes, and more. These dried fruits are used as a snack or ingredient in many food items like desserts, cereal, and trail mix. The market is growing rapidly as consumers are becoming more health-conscious and prefer to choose dried fruits as a healthy snack option over high-calorie alternatives. The market is also expected to grow due to the increasing demand for dried fruits in the food industry.
