Vegan chocolates are now popularly used in the preparation of desserts, dishes, and beverages in South Korea due to the health benefits associated with the vegan chocolates. They help in improving the health of consumers as they contain sufficient amount of Vitamin E, copper, and magnesium which are known to strengthen the natural defences of the body, ensure a supply of oxygen to the blood cells, and improve blood flow. Moreover, the role of vegan chocolates in lowering bad cholesterol and improving blood pressure are further encouraging consumers to adopt vegan chocolates.

Both Generation Z and Millennials are including vegan chocolates in their diets owing to the rising awareness regarding cruelty towards animals and the need to contribute towards environmental sustainability goals. Due to rising awareness and internet penetration people are becoming aware and empathic towards animals thereby helping in the growth of the South Korea vegan chocolate market.

South Korea Vegan Chocolate Industry Definition and Major Segments

Vegan chocolate is a type of chocolate that is prepared using plant-based products without the use of animal-derived products such as honey, eggs, and dairy products. Vegan chocolate is considered to be a safe and healthy product due to the presence of fewer calories and fats. It includes cacao, and the health benefits offered by it.

Based on product, the market can be segmented into:

- Dark Chocolate
- White Chocolate
- Others

On the basis of flavour, the market can be classified into:

- Caramel
- Brown Butter
- Lavender
- Coconut Milk
- Others

Based on distribution channel, the market can be divided into:

- Hypermarkets and Supermarkets

- Convenience Stores
- Specialty Stores
- Online
- Others

South Korea Vegan Chocolate Market Trends

The key trends in the South Korea vegan chocolate market include the rising number of factories and expansion of product ranges by manufacturers to increase the overall production rate which is thereby expected to fuel the growth of the market in the country. Further plans to establish separate plants for the production of vegan products, and various initiatives by the South Korea government to conduct awareness campaigns to promote veganism by sponsoring food events and supporting start-ups is expected to enhance the growth of the South Korea vegan chocolate market in the forecast period.
