

More than rockets being launched out of Florida

FLORIDA, UNITED STATES, January 25, 2023 /EINPresswire.com/ -- As the Space Force's Space Launch Delta 45 heads into successfully launching over 50 rockets this year with no sign of slowing, Florida is launching more exciting events and organizations than ever. To support the Guardians, as well as over 16,000 aerospace companies in Florida, the [Space Force Association \(SFA\)](#) has successfully launched its own [Florida Chapter](#). The chapter has a leadership team in place and working toward SFA's priority to support SF Guardians. Rob Fabian (President), Martin Amen (Vice President), and Susie Dabrowski (SE Region VP) attended the inaugural meeting.

FL Chapter SFA member, Brian Baluta, Lockheed Martin (LM) coordinated SFA's sponsorship of Artemis 1 launch promotion events. FL Chapter members Rob Fabian, Martin Amen, Benneth Perez (Director of Outreach), and Susie Dabrowski attended LM's launch events, 27-29 August, including a Mission Briefing, Kennedy Space Center Launch Pad 39B tour and launch viewing. Eric Sundby, SFA Executive Director and Matt Anderson, SFA COO also attended the launch viewing, along with members of the SFA Media team.

In December, the FL Chapter supported the Space Force's and SLD45's Inaugural T-minus 10 Miler run. The team established some lofty goals and now that our chapter has launched, we can expect our chapter to grow and flourish.

Artemis 1 launch was delayed until Nov 16th at 1:47 EST, and was the first, uncrewed launch of NASA's Space Launch System. It flew the Orion crew capsule and completed its 25 day, 10 hour, 55 min, 50 sec mission on Dec 11, 2022. Artemis 2, the first scheduled crewed mission, is scheduled for May 2024.

'We Are Going' to the Moon

About the Space Force Association (SFA):

The Space Force Association (SFA) is the only independent, 501(c)(3) non-profit organization that serves as a professional military association whose sole focus is supporting the United States Space Force, United States Space Command, U.S. national spacepower at large, and our global partners and allies' efforts in space exploration. Its core functions are to research, inform, and advocate to achieve superior spacepower by shaping a Space Force that provides credible deterrence in competition, dominant capability in combat, and professional services for all partners. In addition, the SFA has an essential function to provide support for the men and women of the U.S. Space Force. Membership is open to both military and civilians. For more information on the SFA, please visit ussfa.org.
