

# It's The New Year and The Perfect Time to Check a Dog's Mobility, by YuMOVE, Joint Supplements for Dogs

*It's the start of the New Year and the perfect time to check a dog's mobility, kicking off the year and helping every dog get out and move.*

ORLANDO, FL, UNITED STATES, January 26, 2023 /EINPresswire.com/ -- It's the start of the New Year and the perfect time to check a dog's mobility, kicking off the year and helping every dog get out and move. [YuMOVE](#), the [high-quality joint supplement for dogs](#) and the American Kennel Club's official dog joint supplement, offers this checklist to help check a dog's mobility.

## The Dog Mobility Checklist

Pet owners should also consider providing a high-quality dog joint supplement, like YuMOVE, which will help soothe occasional stiffness, support joint structure and promote mobility. "

Review this checklist and ask, does this dog show any sign of:

- Visible signs of stiffness in the morning or after resting.
- Walking slower or limping on walks, and even around the house.
- Struggling to sit or stand.
- Reluctance to get in or out of bed. A place most dogs enjoy.
- Trouble going up or down the stairs.
- Slipping when getting up or walking around.

- Shifting weight from either front to back legs or vice a versa.
- Acting grumpy, or perhaps, even grumpier.
- Signs of being lethargic, sluggish or even apathetic.
- Hesitating or not engaging in normal activities the dog use to enjoy.

If the dog shows signs of one or more of the items on the checklist, consider talking with a vet. While senior dogs have more concerns with mobility, younger dogs can too.

Pet owners should also consider providing a high-quality dog joint supplement, like YuMOVE, which will help soothe occasional stiffness, support joint structure and promote mobility.
