/EINPresswire.com/ -- Pirates & Scallywags: Part II officially launches today and features the trilogy's three captains embarking on quests of vengeance and hunting fabled treasure. However, Captain Hazard of the English Royal Navy is furiously searching for them, committed to bringing them to justice. While in the shadows, evil forces are growing in strength and plotting to destroy them all.

"One of the things I love about this book are the setbacks each captain is forced to overcome, and the resiliency they show," said author [Sam Stoutman](#). "Part II has a more serious tone than the first with the emergence of the villains' all-consuming evil. From seeking to destroy their fellow pirates, to a diabolical plan to dominate the slave trade, the villains abandon all humanity and massively raise the stakes for Part III."
