

M3CCA's New Song Release FOOTSTEPS IN THE DARK

M3CCA releases her new single "Footsteps in the Dark" (releasing 02/10/23) after her last release "Stars and Moons" was a great success.

LOS ANGELES, CA, USA, January 28, 2023 /EINPresswire.com/ -- The Multi-talented singer-songwriter [M3CCA](#) delivers a touching cover of The Isley Brothers' "Footsteps in the Dark" with her own groove and style. This harmonious rendition pays tribute to the iconic 70's group, as well as the artist's own mother who inspired M3CCA's lifelong love of song. Though "Footsteps in the Dark" debuted before M3CCA was even born, her crystal-clear vocals and authentic inflections prove that she's an "old soul" who knows the magic of music. Fans of nostalgic tunes will enjoy playing this tribute song on repeat, while newer listeners can appreciate the heartfelt melody and M3CCA's individual take on the classic hit.

M3CCA's creative photoshoot with Michael Bezjian at Getty has garnished her attention for her outgoing creative personality and she is becoming one of Hollywood's most sought-after music artists.
