

Dr. Isha Farha Quraishy launches a global mission to make education accessible for every child on the planet

Dr. Isha Farha Quraishy is a leading Education Technology Expert working in line with United Nations Sustainable Development Goals.

DUBAI, UAE, January 29, 2023 /EINPresswire.com/ -- Ambassador for Diplomatic Mission for Global Peace, Dr. Isha Farha Quraishy, a renowned education technology expert, entrepreneur, and philanthropist, launches a mission to make education accessible for every child worldwide using the latest technologies and innovative solutions, in-line with the United Nations Sustainable Development Goals (SDGs).

Dr. Isha Farha Quraishy, an accomplished entrepreneur, technology expert, and philanthropist, is on a mission to make education accessible for every single child on the planet. With a focus on education technology and the future of learning, Dr. Quraishy is working to bridge the gap between the 60 million children without access to education and the opportunities they deserve.

As a leading expert in education technology, Dr. Isha focuses on the needs of Gen Z, who are growing up in a world of rapid technological change. With this in mind, she is working to develop ed-tech solutions that will help to create a more inclusive and accessible education system for all children. She is also a part of multiple foundations and educational training centers for people of determination.

One of the critical areas of focus for Dr. Isha is the use of new-age technology like the Metaverse in education. The Metaverse is a digital world where users can interact and experience virtual reality, and it has the potential to revolutionize the way that education is delivered. With the Metaverse, students can access a wealth of educational resources and experiences worldwide,

regardless of their location or physical abilities.

As technology advances at an unprecedented rate, Dr. Isha believes that it will play an increasingly important role in shaping the future of education. Technology in education is already helping to create a more equitable and inclusive learning experience for all students, from online learning platforms to virtual reality classrooms.

Dr. Isha will share her knowledge and experience at several upcoming events, including as the Chief Guest and Speaker at DPS Sharjah – Confluence 2023 and GEMS Our Own – Inspire '22, where she will inspire students to innovate, share ideas, and excel in education and career. She will also be appearing at the "Future Women Summit" in Paris on Women's Day, March 8th.

Dr. Isha says about her journey, "It has been a privilege to be able to use my talents and passions to make a positive impact on the world, and I am committed to continuing this work in the future. The ability to educate and empower others through technology is something that I am deeply passionate about, and I am excited to see the positive change that we can create together."

Dr. Isha's mission to bridge the gap between education and technology is needed now more than ever. With the world's population rapidly growing and technology advancing at an unprecedented rate, we must use these tools to improve access to education and give every child a chance to succeed.
