Trending Insurance Agencies Market Trend

Introduction to technology-enabled services and platforms is a leading trend in the insurance agencies market. Insurance and technology companies are assisting insurance agencies by developing technology-enabled services and platforms for enhancing smooth customer

experience and versatility. For instance, April 2020, Aureus Analytics, an artificial intelligence technology company, partnered with HawkSoft to help independent insurance agents understand better how well their agency serves the insured. Furthermore, in October 2021, a digital asset financial services platform called BVNK was launched which would make crypto financial services more accessible to the patients.
