Trending Video Equipment Market Trend

The demand for Ultra HD televisions is increasing rapidly, as they are energy efficient and offer high-quality images. Ultra HD televisions include 4K and 8K UHDs that have an aspect ratio of 16:9 or wider, and also present a minimum resolution of 3840x2160 pixels. The transition from traditional CRT and LCD TVs to ultra-HD TVs has been fast owing to the brisk pace of technological advances. For instance, in June 2020, according to TVB-Europe, an England-based online television service, over half of 18-24-year-old say they spend more time watching video-

sharing platforms than broadcast TV. In many developed countries such as US and the UK, 34% of global households had smart TVs by the end of 2020 and sales increased by 7.4% in 2020 and expected to reach majority by 2026. Thus, indicating high demand for ultra-HD 4k and 8k televisions.

[Video Equipment Market Segments](#)

- By Product Type: Television, Video Cameras, Video Players
- By End Use Industry: B2B, B2C
- By Application: Online, Offline
