The songwriting duo Jack & Hill (Chel Hill and Alex Bäcker) tapped a lineup of star-studded musicians to create their debut single "Spend A Little Time." The song features Bon Jovi's Phil X, multi-Platinum producer Ron Nevison, (Heart, Barbra Streisand, Survivor, Chicago, Kiss, The Rolling Stones, Joe Cocker, Led Zeppelin, Meat Loaf, Europe and The Who), Grammy-winner Jeff Bova (Celine Dion, Cyndi Lauper, Billy Joel, Air Supply, Eric Clapton, Iron Maiden, Michael Jackson, Hall & Oates) on piano and strings, Denny Fongheiser (Tracy Chapman, Counting Crows, Belinda Carlisle, Freddie Mercury, Tom Cochrane, Pavarotti) on drums, and Tony Franklin (Roy Harper, The Firm, Jimmy Page, Eros Ramazotti) on bass. The song was engineered by Chris Kahn (5 Seconds of Summer, Ariana Grande, Britney Spears, GooGoo Dolls, Willie Nelson).

"Spend a Little Time" brings back the nostalgia of clean, straightforward female vocals accompanied by legendary guitar riffs with an 80's era vibe.

"This all started as a random idea while I was playing the piano. It is a love song about longing for the one you love, especially when they're far away. To see where that small idea has taken us, it has been such an honor to work with so many legendary musicians on this project, people I have admired for many years," said singer/songwriter Hill, the co-writer and vocalist on this project.

"Imagine getting to make a song with one of your childhood heroes," said Bäcker, co-writer. "We're lucky to have such an incredible group of musicians bringing our song to life. We were

lucky to spend a little time with them recording our song. We believe that everyone can relate to the feeling of missing someone and wanting to spend time with them."

"Spend a Little Time" is currently available to pre-save at jackandhill.band and will be available on all major streaming platforms on Valentine's Day, so mark your calendar and give it a listen.
