## [Biocides Market](#): Overview

The demand for these products will grow in the forecast period due to their use in the household sector, water treatment, personal care wood preservatives, and Paints as well as coatings. Increased use of biocides in the protection from various viruses will drive market growth. The stringent policies adopted by various nations will also be instrumental in the growth of the market. The use of biocides in water treatment is one of the major applications of this product apart from its use in paints and coatings.

The market for biocides has increased in developing as well as developed nations. The use of biocides in power plants has grown to a great extent and it shall provide good opportunities for growth in the coming years. Biocides are used in the cooling towers of chemical plants and also the mining plants. the infrastructure of the gas and oil industry is made up of metal. In order to prevent the corrosion of the metal biocides are used on a large scale in this industry.

The biocides of the oxidizing, as well as a non-exercising nature or largely used in the industrial sectors, manufacturing sectors and it, is also used in the manufacturing of cleaning products. The market for biocides will continue to grow during the forecast. As it prevents the growth of different types of microorganisms which may lead to operational failures.

#### Regional Landscape

Asia Pacific region is expected to have the largest market share for the use of biocides in various industries. The demand for biocides has grown in the Asia Pacific region and it will continue to grow due to the increased amount of exports through this region. Increased use of biocide in the personal care products, household, food and beverages industry, and water treatment will drive market growth in the coming years. China exports a huge quantity of biocides and this nation is expected to play an important role in the growth of the market in the Asia Pacific region.

The manufacturing of biocides has grown in recent years as this nation has made use of high technology and this industry happens to be labor intensive due to which the market for biocides has grown to a great extent. as this nation has adopted the strategy of economies of scale there has been an exponential growth and surplus is generated every year. Europe is also expected to have good market growth in the coming years.

The growing importance of sustainability will play an important role in the growth of the market. The European market is a regulated market especially when it comes to the certification of these biocides. There has been an increase in the manufacturing of biocides that are environmentally friendly. And this is expected to provide a great opportunity for growth in the coming years.

The Biocides Market is segmented as follows:

### By Product

Halogen Compounds

Metallic Compounds

Phenolic

Nitrogen

Organosulfur

Organic acids

Quaternary Ammonium Compounds

Glutaraldehyde

## By Application

Water Treatment  
Food and Beverage  
Personal care  
Wood Preservation  
Paints and coatings  
Plastics  
Pulp and Paper  
HVAC  
Boilers  
Oil and Gas  
Fuels  
Cleaning Products

## By Geography

### North America

The USA  
Canada  
Mexico  
Europe  
The UK  
Germany  
France  
Italy  
Russia  
Rest of Europe

### Asia Pacific

China  
India  
Japan  
South Korea  
Malaysia  
Philippines  
Rest of Asia-pacific

### Latin America

Brazil  
Rest of Latin America  
Middle East and Africa  
GCC  
North Africa  
South Africa  
Rest of Middle East & Africa
