

3T Pro Offers I.T. Strategy Consulting Services in 12 Texas Cities

One of Texas' best in computer support and I.T. services has expanded its services.

RICHARDSON, TEXAS, UNITED STATES, February 1, 2023 /EINPresswire.com/ -- Representatives with [3T Pro](#) announced today that it offers [I.T. strategy consulting services](#) in 12 cities in Texas.

"Being in business ourselves, we understand it is less about tactics and more about the strategy," said 3T Pro Vice President of Sales Tommy Gay. "While servers, hardware and software are indeed what run, they are just soulless tools without confident people to run them and knowledgeable suppliers to ensure their survival."

The 12 cities included in the I.T. strategy consulting services are Dallas, Fort Worth, Richardson, Garland, Plano, Irving, Arlington, Rockwall, Mesquite, Grand Prairie, Carrollton, and Allen.

3T Pro provides 24/7 Computer Support and I.T. Services to a wide variety of small- and medium-sized businesses across Dallas, Ft. Worth, and beyond. The company offers hourly and managed I.T. Services, Cloud, Project Management, Business Continuity, and more.

The company, which is celebrating two decades in business, also has [three managed I.T. service plans](#) that include Silver Support, Gold Support, and Platinum Support.

"Our Silver plan provides your business with a solid network security foundation - Network Security and Hourly I.T. Support," Tommy revealed. "This is the perfect standalone service to add a strong layer of security to your network."

According to Tommy, the Gold plan pairs the security of the Silver plan with the addition of unlimited remote I.T. support. Additionally, organizations will benefit from Microsoft 365 subscriptions, disaster recovery backups, email security filters, and much more.

“Our Platinum package provides all the security of our Silver plan, and all the features of the Gold plan topped off with our full-service technical support services,” Tommy said. “It’s the perfect plan for small businesses who want a fully managed I.T. program with a fixed monthly cost.”

As it relates to 3T Pro’s three managed I.T. service plans, Tommy said, “Some businesses prefer our managed I.T. support Silver Plan that provides strong network security coupled with a discounted hourly rate. Other customers prefer a fixed monthly cost for services, so they adopt the managed I.T. support Gold or Platinum service plans. No matter your choice, we’re committed to providing service and support that work best for you and your business.”
