

# Elektroplate Launches New Personalization Page for High-Quality Chrome Automotive Products

CARROLLTON, TEXAS, UNITED STATES, February 2, 2023 /EINPresswire.com/ -- [Elektroplate](#), a leader in high-quality automotive interior & exterior accessories, is excited to announce the launch of its new [personalization page](#). The interactive page allows customers to customize a variety of products, including [license plate frames](#), hitch covers, and license plates, without having to purchase in bulk.

Customers can choose from a variety of color options, including up to 8 colors and patterns for the license plate frame, 3 color options for the decorative front license plate, and 6 color options for the hitch cover. Personalization options allow the customer to add text and symbols, with both capital and lowercase options available.

“

We are excited to offer this new feature to our customers and can't wait for them to see the possibilities that are now available for them”

*Erin Corpening, Brand Strategist*

In addition, Elektroplate will be launching a new feature next week that will further enhance the personalization page. This new feature allows customers to add mini versions of Elektroplate’s most popular emblems including Military, Police, Patriotic and more. Customers can place the mini emblems on the left, right, or both sides of the license plate frame to create a truly unique custom frame.

Previously, the only option for custom products was a 300-piece minimum, which is often used for companies and promotions. However, with the launch of this new personalization page, Elektroplate is now able to offer customers the ability to personalize their products in a way that was not previously possible. Erin Corpening, Elektroplate Brand Strategist, “We are excited to offer this new feature to our customers and can't wait for

them to see the possibilities that are now available for them.”
