

Partnership of Fi-Med's Well Living Initiative Services with ModuleMD

*Enabling Medical Providers to have an integrated Patient Care Management System within ModuleMD's
ONC-Certified EHR Software.*

This partnership delivers a true extension of the practice, minimizing interruptions in daily workflow and enabling the practice and their patients achieve the advantages of this valuable CMS program.”

Christine Krause

SEDONA, AZ, USA, February 1, 2023 /EINPresswire.com/ -- Fi-Med today announced a new partnership with ModuleMD. Through this partnership provider practices will have seamless bi-directional integration between Well Living Initiative's (WLI) internal Chronic Care Management (CCM) platform and the ModuleMD EHR system and provide practices comprehensive care coordination and chronic care management (CCM) services.

“Fi-Med has always worked closely with practices to improve patient care and provider patient communications. We knew this partnership would

enhance patient care for practices using the ModuleMD EHR,” stated Christine Krause, COO, Fi-Med Management, Inc. “This partnership delivers a true extension of the practice, minimizing interruptions in their daily workflow and enabling the practice and their patients achieve the advantages of this valuable CMS program.”

“As part of our 2023 initiatives, we knew it would be important to provide opportunities for medical providers to expand their practices with much needed service extensions while maintaining efficiency in daily operations,” says Abhinay Penugonda, CEO at ModuleMD. “This partnership will allow Well Living Initiative to provide Chronic Care Management services as a true extension of the medical practice and streamline operations for better care coordination and improve patient care.”
