American IRA opened its recent post by talking about its YouTube Channel, the Lousy Investor. This channel is loaded with information related to Self-Directed IRA investing. It's also presented in both long-form videos and audio-only podcasts, which gives investors a chance to listen to podcasts that address their Self-Directed IRA concerns. It can be difficult to find information in this format that's specifically dedicated to investors who want to learn about self-direction, which is why this can be such a valuable channel for investors who want to learn more.

American IRA also pointed to its Self-Directed IRA free knowledge center as a great resource for investors. This is more of an overview of what investors can expect to think about when it comes to Self-Directed IRA topics. Rather than address one topic at a time, as the Lousy Investor does, this Self-Directed IRA free knowledge center gives investors a chance to read at their own speed and look up topics as they see fit.

Self-Directed IRAs are a popular way to invest for investors who want to put aside retirement assets in a way of their choosing. It allows investors to work through a Self-Directed IRA custodian and possibly invest in a wide range of retirement assets, including real estate, precious metals, and private investments in private companies.
