Trending Combines Market Trend

Technological advancements in farm machinery such as the involvement of telematics in agricultural equipment are likely to be an emerging trend in the combined market. Telematics is a data transfer system that retrieves and records work data, tracks, and yields data from connected combine harvesters, forage harvesters, and tractors. The collected data are further accessed and evaluated online in real-time or retrospectively through the telematics website using a desktop, laptop, smartphone, or can be exported to any common farm management software program.

Combines Market Segments

- By Product Type: Self-Propelled, Tractor-Pulled, PTO Powered
- By Type Of Movement: Crawler Type, Wheel Type
- By Power: Below 150 HP, 150-300 HP, 300-450 HP, 450-550 HP, Above 550 HP
- By Geography: The global combines market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.
