Trending Personal Computers Market Trend

A confluence of existing factors driving PCs market has been accelerated by the COVID-19 crisis. According to an International Data Corporation (IDC), in India desktops, laptops, and workstations witnessed a 30 per cent year-over-year jump in the third quarter of 2021 and recorded a shipment of 4.5 million units. This is likely to persist, as online lectures and remote

workflow continued their course leading to strong demand for laptops. Thus, COVID-19 pandemic has been a driver for the market.
