

French artist Freddy Zucchet signs with Los Angeles- based Cleopatra Records label

Brian Perera, President of Cleopatra Records Hollywood confirms his interest in Freddy's achievements and song "We Need Water & Rain".

SAINT RÉMY DE PROVENCE, FRANCE, FRANCE, February 1, 2023 /EINPresswire.com/ -- After "Welcome to Brighter Days" and a collaboration with prestigious producer Michael Vail Blum (Madonna, Joan Baez, Prince, Michael Jackson...), Freddy Zucchet worked with artists from London and Los Angeles to record his new song "We Need Water & Rain".

Appreciating Freddy's song and achievements, Brian Perera, President of Cleopatra Records Hollywood, contacted him to offer an agreement. Matt Green, Vice President of Acquisitions, handled the administrative and technical aspects of the contract.

By this agreement with the legendary Los Angeles label, Freddy has the honor of joining artists such as Stephen Stills (Crosby Nash and Young), Yes, MC5, Santana, Elton John, Bob Marley, Jimmy Page, and the young artists of today's new American scene. "Wow, that feels weird!" Says Freddy with a laugh.

“

We Need Water & Rain", this Pop Rock song, fits perfectly into the catalog of the Cleopatra Records label."

Cleopatra Records Inc. includes many other labels of diverse, and sometimes very specialized styles. "This agreement with Freddy Zucchet contributes to the opening

of Cleopatra. "We Need Water & Rain", this Pop Rock song, fits perfectly into the catalog of the label," says Brian Perera.

Cleopatra, in partnership with the distributor The Orchard - SONY Music, broadcasts "We Need Water & Rain" on 150 platforms accessible to over 100 countries.

Thank you for reading and for the interest. Feel free to contact us with any questions or proposals. Thanks in advance for your article, report to come.

The song

The theme of the song is the quest for water, a daily worry for many humans that resonates particularly in this period of accelerated global warming. "While the theme is serious, the lyrics are evocative and poetic," adds Freddy, "not didactic or moralistic." The overall sound is pop rock, and the structure of the song is reminiscent of traditional African songs and Gospel incantations.

The singer Rudiger is particularly engaged. The power of his singing, the technical possibilities of his voice with its wide range, and his masterly interpretation are deeply moving.

If a successful song is the result of the mysterious alchemy between lyrics, music, interpretation, and production, such an osmosis is rare. As Veselina Gerova, The Next Web, points out, "We Need Water & Rain" ticks all the boxes. Lyrics, music, interpretation, and production are top notch. This project is a great success!"
