

Highlights from the Construction Links Network platform this week - February 2, 2023

Canada's ONLY content sharing platform for the construction, building and design community

SUNDRE, ALBERTA, CANADA, February 2, 2023 /EINPresswire.com/ -- Construction Links Network is a unique news platform where members "Get More Eyes" on their digital content and increasing their SEO.

The network includes thousands of Canadian construction managers, contractors, developers, building managers, property managers, architects, designers, engineers, government officials and more.

Members use this platform to share and onboard their digital content on the Internet, through social media and our popular e-Newsletters. Ideal for product / service releases, company announcements, blogs, podcasts, webinars, case studies, videos and more.

Top videos this week include [PCL Construction testing new HP construction technology](#) that reduces costs, while improving productivity and efficiency. HP SitePrint offers a robotic layout solution for quick, accurate and easy construction site layouts. The next top video is courtesy of Civil Mentors who give us a look at the [incredible engineering behind building bridges over deep water](#). From the initial planning and design phase, to the actual construction and the challenges that come with it.

More content shares from members include:
