[Cyclamate Market](#) size is forecast to reach US\$168.1 million by 2027, after growing at a CAGR of 3.9% during 2022-2027. Cyclamate is an odorless white crystalline powder that is used as a non-nutritive sweetener in the food and beverage industry. Cyclamate is an artificial sweetener that is 30–50 times sweeter than sucralose. It is often used with another artificial sweetener, especially saccharin. Cyclamates are produced from cyclohexylamine by aniline reduction through the process known as sulfonation. Cyclamtes are available in three types, namely sodium, calcium and cyclamic acid. The growing demand for sweeteners in the food & beverage and cosmetics industry is expanding the Cyclamate Market size. The product finds its usage in more than 100 countries in different products such as sweets, soft drinks, dressing cakes, chocolates and more.
