[Trending Computer Servers Market Trend](#)

Technological advancements are a major trend shaping the computer server market. Major companies operating in the computer server sector are focusing on developing technology advanced solutions for a computer server. For instance, in March 2020, Oxide Computer, a USA-

based computer hardware company introduced a new type of server in which hardware and software were built together. This strategy is used by 'hyperscalers' (AWS, Microsoft, Google and Facebook) to control companies who want or need to operate their server fleets with the most sophisticated data centers on the planet

Computer Servers Market Segments

- By Server Type: Web Server, Virtual Server, Application Server, Database Server, Other Server Types
- By Server Operating System: Microsoft Windows Servers, Linux / Unix Servers, Netware, Cloud Servers
- By Application: Mainframes, Desktop, Laptop Computers, Other Applications
- By Geography: The global computer servers market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.
