[Trending Coworking Space Market Trend](#)

The development of sustainable coworking spaces is a major trend shaping the coworking

spaces market. Coworking spaces are implementing eco-friendly measures in the workplace to attract entrepreneurs concerned with environmental issues such as global warming. Sustainable practices adopted by coworking space providers offer substantial benefits and are economically feasible. For instance, CoCoon in Hong Kong has a floor made of natural bamboo and uses non-toxic paints and LED lights. In addition to this, drought-resistant plants are part of the interior and exterior. Another such example is Green Spaces in Denver uses about 160 solar panels on the roofs of its offices. These allow significant cost savings at Green Spaces. Thus, sustainable coworking space is a key trend in the coworking spaces market.

Coworking Space Market Segments

- By Business Type: Open/ Conventional Coworking Spaces, Corporate/ Professional Coworking Spaces, Other Business Types
- By End Use: Finance, Legal Services, Marketing, Technology, Real Estate, Consulting Services, Other End Uses
- By User: Enterprises, Freelancer, Other Users
