

Milk Protein Concentrate Market to Reach US\$1.2 billion by 2027 : IndustryARC

Increasing awareness about protein rich food products are likely to driving the market growth of the Milk Protein Concentrate Market report.

HYDERABAD, TELANGANA, INDIA, February 3, 2023 /EINPresswire.com/ -- IndustryARC, in its latest report, predicts that the Probiotics Dietary Supplements Market size is estimated to reach \$683.5 million by 2027, growing at a CAGR of 6.6% during the forecast period 2022-2027. Functional

food for heart health is a form of dietary supplement that includes the elements needed to enhance metabolic syndromes of heart health. They normally include important nutritive constituents like vitamins and minerals, as well as polyunsaturated fatty acids, antioxidants, fiber, and plant sterols, all of which are necessary for a healthy cardiovascular system. Nutritional value or nutritive value as a portion of food quality is the measure of a well-balanced ratio of the vital nutrients carbohydrates, fat, protein, minerals, and vitamins in items of food or diet regarding the nutrient needs of their consumer. Breakfast cereals, dairy products, edible oils, nutritious bars, and other foods that supply a variety of vital nutrients to the body for circulatory system support are included in this category. Bioactive peptides are recognized for their soaring tissue affinity, specificity, and effectiveness in enriching health. For this reason, the exploration for food-derived bioactive peptides has heightened exponentially.
