

# Antioxidants Market size is forecast to reach \$7.7 billion by 2026 - IndustryARC

*Increasing usage of nutritional supplements and increasing consumer inclination towards healthy diets are likely to aid market growth of Antioxidants Market*

HYDERABAD, TELANGANA, INDIA, February 3, 2023 /EINPresswire.com/ -- IndustryARC, in its latest report, predicts that The [Antioxidants Market](#) size is forecast to reach \$7.7 billion by 2026, growing at a CAGR of 5.8% during the forecast period 2021-2026.

Antioxidants are sourced naturally or synthetically. Natural antioxidants replace synthetic products for preventing negative effects caused by synthetic compounds. It defends the cells from damage that are caused by harmful molecules. Oxidative stress is caused by heart disease, cancer, respiratory diseases, and other inflammatory ischemic conditions. Free radicals are neutralized in the body with the help of the antioxidants. There are different types of antioxidants such as Butylated Hydroxytoluene, and lycopene among others. Ascorbic acid acts as an antioxidant for protecting cellular components in the body. Increasing applications of natural antioxidants, increasing preference of consumers towards healthy diet, and increasing demand from cosmetics industry is the major factor driving the growth of the market. Increasing application of antioxidants from food & beverage industry and increasing usage of antioxidants in convenience food is set to further enhance the overall market demand for the Antioxidants Market during the forecast period 2021-2026.
