As one of the most accessible and affordable [recession-resistant franchises](#) in the industry, PatchMaster offers a solid support system to assist its franchisees in building their businesses. "I am delighted to welcome Brian to the PatchMaster family as a franchise owner. I look forward to his continued success," said Paul Ferrara, PatchMaster's CEO.

PatchMaster's business model offers customers a fast, professional solution for drywall repair. Most handymen, contractors, and large drywall companies want to do more than just minor drywall repair. That is where PatchMaster fills the critical niche in the market. PatchMaster repairs holes caused by renters, plumbing leaks, and DIY projects that never seem to end. Most PatchMaster repair jobs are done in a single visit.

The initial franchise fee for a PatchMaster franchise territory, which comprises a population between 300,000 to 350,000, is \$49,500 USD. Royalties start at nine percent, and a technology fee is included in ongoing expenses. In addition to strong margins, the ability to scale, and proven business development tools, franchisees complete training at the company's New Jersey headquarters, where industry experts teach them technical and operational skills to assist in their success.
