

Avere Beauty Offers RHA Dermal Fillers at Its MedSpas in Pittsburgh and Murrysville

There are several reasons why RHA Dermal Fillers are so effective and in demand.

PITTSBURGH, PENNSYLVANIA, UNITED STATES, February 6, 2023 /EINPresswire.com/ -- Although [dermal fillers in Pittsburgh](#) are extremely popular, [RHA](#) Dermal Fillers, the clear, colorless, injectable gels that correct facial wrinkles and folds are provenly safe and effective and the newest option.

Locally, [Avere Beauty](#), with a reputation for the latest aesthetic treatments, techniques, and products, just announced RHA Dermal Fillers at its MedSpas in Pittsburgh and Murrysville.

RHA Dermal Fillers are cosmetic injectables, made from hyaluronic acid, a substance that occurs naturally in the body. And there are solid reasons why RHA Dermal Fillers are so widely recommended and in demand.

“Dynamic wrinkles and folds often appear in the areas of the face which move repetitively,” explains knowledgeable Frank Udavcak, the COO of Avere Beauty. “RHA fillers are different from other types of dermal fillers because they mimic the natural properties of the skin. Also, RHA is resilient and adapts to facial changes over time.”

In addition to looking more natural, research shows that RHA Dermal Fillers

- can be used to treat a variety of different areas on the face, including the lips, cheeks, and marionette lines (the creases which sometimes form from the corners of the mouth to the chin)
- are flexible and adapt to skin changes
- last up to 18 months, much longer than other types of dermal fillers
- less likely to cause post-treatment bruising or swelling

“RHA Dermal Filler is also an effective and affordable way to get lasting results,” Udavcak adds.

Medspa clients and aesthetic treatment experts agree. RHA Derma Filler is an exciting game-changer. The good news is that the popular RHA Derma Filler treatments are now available with the skill of the superbly trained and up-to-date staff at the Avere Beauty Medspas in Pittsburgh and Murrysville.
