

Oats Production Market Revenue, Region & Country Share, Trends, Growth Analysis Till 2026 - IndustryARC

Growing inclination towards consumption of healthy snacks coupled with high nutritional value of oats are likely to aid the growth of the Oats Production Market

HYDERABAD, TELANGANA, INDIA, February 6, 2023 /EINPresswire.com/ --IndustryARC, in its latest report, predicts that <u>Oats Production market</u> size is forecast to reach \$6.4 billion by 2026, growing at a CAGR of 4.1% during the forecast period 2021-2026. Oats are a complex form of carbohydrates

that is also considered a potential source of dietary fibers. The primary factor driving the market is the high nutritional value of oats and its availability in different forms like flour and granules. Oatmeal is considered as the healthiest form of breakfast and is used in bakery products across the globe. Additionally, the fast-paced environment among millennials arising because of rapid urbanization has led to the demand of ready-to-eat oats products. With regards to this growing awareness of consumers pertaining to health and wellness is compelling the key players to innovate and bring convenient healthy foods to their product line-ups. The growing worldwide cultivation surrounding oats and its health benefits is set to further enhance the overall market developments of the Oats Production Market for the period 2021-2026.
