

Hearing Aids Market Size Expected to Reach USD 8,967.7 Million and CAGR of 6.3% By 2027 | Emergen Research

The government's support for improving the life of hearing-impaired individuals is one of the significant factors influencing the market growth.

VANCOUVER, BRITISH COLUMBIA, CANADA, February 6, 2023

/EINPresswire.com/ -- The global [hearing aids market](#) is expected to reach USD 8,967.7 Million by 2027, according to a new report by Emergen Research. The hearing aids market is experiencing a rapid growth attributable to the increasing

application of behind-the-ear, receiver in-the-ear, in-the-ear, and canal hearing aids, as well as cochlear implants, among others, in the adults and pediatrics. Innovative technological developments in hearing aids are crucial to fuel market demand. For instance, hearing-impaired individuals are considered to be 300.0% more prone to falling, and the technology, developed by Starkey, on the occurrence of a fall would automatically send alerts to three emergency contact notifying them about the fall, as well the precise location of the hearing-impaired individual. Besides, there are technologies that can detect and generate sound alerts to indicate that the person is on the verge of falling.

Rise in the geriatric population is one of the significant factors influencing the market growth. It has been estimated that by 2050 approximately 16.0% of the global population will be aged more than 65 years, which is expected to increase five-fold since 1950. Elderly people suffer from various complications, including hearing loss. Hearing loss in geriatric people may occur due to various factors, but generally, it occurs from changes in the auditory nerve and inner ear with aging. Besides, medications and certain healthcare issues may also trigger the condition.

How will this Report Benefit you?

An Emergen Research report of 250 pages features 194 tables, 189 charts, and graphics. Our new study is ideal for anyone who wants to learn about the global Hearing Aids market commercially and deeply, as well as to analyze the market segments in depth. With the help of our recent study, you can analyze the entire regional and global market for Hearing Aids. To increase market share, you must obtain financial analysis of the entire market and its segments. Our research suggests there are significant opportunities in this rapidly expanding market for energy storage technology. Look at how you might take advantage of these revenue-generating opportunities. Additionally, the research will help you develop growth strategies, strengthen competitor analysis, and improve business productivity by enabling you to make better strategic decisions.

Segmental Analysis

The global Hearing Aids market is broadly segmented on the basis of different product types, application range, end-use industries, key regions, and an intensely competitive landscape. This section of the report is solely targeted at readers looking to select the most appropriate and lucrative segments of the Hearing Aids sector in a strategic manner. The segmental analysis also helps companies interested in this sector make optimal business decisions and achieve their desired goals.

Emergen Research has segmented the global hearing aids market on the basis of type, hearing loss, application, and region:

Type Outlook (Revenue, USD Billion; 2017-2027)

Behind-the-ear Hearing Aids

Receiver in-the-ear Hearing Aids

In-the-ear Hearing Aids

Canal Hearing Aids

Others

Hearing Loss Outlook (Revenue, USD Billion; 2017-2027)

Sensorineural Hearing Loss

Conductive Hearing Loss

Application Outlook (Revenue, USD Billion; 2017-2027)

Adults

Pediatrics

Distribution Channel Outlook (Revenue, USD Billion; 2017-2027)

Online

Regional Analysis:

This section of the report offers valuable insights into the geographical segmentation of the Hearing Aids market, alongside estimating the current and future market valuations based on the demand-supply dynamics and pricing structure of the leading regional segments. Furthermore, the growth prospects of each segment and sub-segment have been meticulously described in the report.

The report classifies the global Hearing Aids market into various regions, including:

North America (U.S., Canada)

Latin America (Chile, Brazil, Argentina, Rest of Latin America)

Europe (U.K., Italy, Germany, France, Rest of EU)

Asia Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)

Middle East & Africa (Saudi Arabia, the U.A.E., South Africa, Rest of MEA)

Competitive Terrain:

The Global Hearing Aids Market is highly consolidated due to the presence of a large number of companies across this industry. The report discusses the current market standing of these companies, their past performances, demand and supply graph, production and consumption patterns, sales network, distribution channels, and growth opportunities in the market at length. The report scrutinizes the strategic approach of key market players towards expanding their product offerings and fortifying their market foothold. The leading market contenders listed in

the report are as follows:

Benson Hearing, Starkey, Medtronic, Sivantos Pte. Ltd., MED_EL, WIDEX USA Inc., GN Store Nord A/S, Phonak, William Demat Holding A/S, and Rion, among others.

Report Highlights:

By type, canal hearing aids are estimated to witness the fastest growth rate of 7.8% in the forecast period. Canal hearing aids have a less likely chance to overwhelm listeners with feedback, and blocking of the ear canal is less of a problem, thus mitigating the occlusion effect.

By hearing loss, sensorineural hearing loss held a substantial market share in 2019. Sensorineural hearing loss (SNHL) occurs post damage to the inner ear. It may also occur owing to nerve pathways problems from the inner ear to the brain. SNHL may cause difficulty in the hearing of soft sound and even louder sounds.

By application, pediatrics are estimated to observe a CAGR of 4.6% in the forecast period, as the amplification of sound stimulates and promotes the growth of the brain's auditory centers, thereby assisting in a child's critical learning.

Europe, in terms of revenue, held the largest hearing aid market share in 2019 and is likely to grow at a CAGR of 5.8% in the forecast period. The market dominance of the region is owing to the growing geriatric population and increasing occurrences of hearing loss.

Key questions addressed in the report:

Who are the leading players dominating the global Hearing Aids Market?

Which factors could potentially hamper the global market growth during the forecast period?

Which regional market offers the most attractive growth opportunities to the companies operating in this market?

How is the raw material availability affecting the demand for Hearing Aids in this industry vertical?
