

# DrugTestKitUSA Announces Limited-Time Sale on COVID-19 Antigen Test Kits This Winter

*COVID-19 did not go anywhere, and testing is now as crucial as ever.*

WOODLAND HILLS, CALIFORNIA, UNITED STATES, February 11, 2023 /EINPresswire.com/ -- As the new [XBB.1.5 variant](#) increases its spread across the United States, there is concern that a new wave of COVID infection is in progress. This new variant is a hybrid of previous variants (including XBB), resulting in increased transmission and improved evasion of the immune system. It is becoming the dominant variant in the U.S.

The key principals for community and individual protection remain:

immunization (especially with the new bivalent booster), masking in crowded and indoor spaces and, of course, testing.

DrugTestKitUSA has announced a limited-time discount on COVID-19 antigen test kits this winter.

These test kits are Emergency Use Authorized (EUA) by the FDA for use at home or in non-clinical settings. Professional CLIA-waived tests are also available for use in physicians' offices, clinics, or pharmacies.

During this sale, customers can purchase antigen test kits at a discounted price. Whether you are an individual looking to keep yourself and your loved ones safe or a business looking to ensure the safety of your employees and customers, these antigen test kits are an important asset.

The kits are easy to use and provide results in as little as 15 minutes, making them a convenient option for on-the-go testing. These antigen test kits are designed to provide quick and accurate
