

# ARway Signs AR Wayfinding Deal With Saudi German Health

*Healthcare Sector Ripe for Transformation; AR Wayfinding For Hospitals Represents Blue-Sky Growth Opportunity*

NEW YORK CITY, NEW YORK, USA, February 7, 2023 /EINPresswire.com/ -- ARway Corporation

We look forward to a successful partnership with Saudi German Health group and to bringing our AR technology to more healthcare organizations in the future.”

*Evan Gappelberg -CEO*

(“ARway” or the “Company”) (CSE: ARWY), (OTC: ARWYF) (FSE: E65) is disrupting the Augmented Reality Wayfinding market with a no-code, no beacon spatial computing platform enabled by visual marker tracking. ARway is pleased to announce that Saudi German Health has chosen to utilize the Company’s augmented reality wayfinding solution. Saudi German Health is the leading private healthcare provider across the Middle East and North Africa.

ARway CEO Evan Gappelberg commented, “We are excited

to have the opportunity to work with such a highly regarded organization and believe that our technology has the potential to greatly improve the efficiency and accessibility of healthcare facilities. We look forward to a successful partnership with Saudi German Health group and to bringing our AR technology to more healthcare organizations in the future.”

The partnership is for a single project at one of Saudi German Health’s new locations in Makkah, Saudi Arabia with possible system wide expansion to a total of 15 hospitals. The project aims to bring the latest AR technology to the healthcare sector, by utilizing ARway’s AR wayfinding and guiding solutions, aimed at enhancing the patient experience and making navigation within the hospital more efficient. ARway’s groundbreaking technology will help patients and visitors navigate the complex medical facilities, providing clear and intuitive directions through the use of overlaid AR graphics and information

The healthcare sector is ripe for transformation and ARway is at the forefront of this change. By partnering with Saudi German Health, ARway is positioned to become the leading provider of spatial AR solutions in the healthcare sector, both in MENA and globally.

“This partnership with Saudi German Health is a major milestone for ARway. We are proud to be at the forefront of the transformation of the healthcare sector with cutting-edge AR technology,”

said Baran Korkmaz, Co-founder of ARWay.

This collaboration marks a significant step towards the integration of AR technology in the healthcare sector and sets a new standard for patient experience and wayfinding in the region.

Based on the success of the project, the partnership will be extended to other locations within Saudi German Health's facilities in the future. The Group is now the leading provider of healthcare services in MENA with in-house knowledge and facilities under one roof to develop and operate world-class hospitals.

#### About Saudi German Health

Saudi German Health is a consolidation of our healthcare and education infrastructure, simplifying end-to-end patient care. Saudi German Health has 15 world-class hospitals that are dynamic healthcare hubs, bringing together top doctors, nurses, specialists, and technicians to provide the highest standard of integrated and specialist care, providing care to over 2.5 million patients annually. About ARWay Corp

ARWay is a no-code spatial computing platform for the real-world Metaverse. It enables AR-enhanced indoor navigation and wayfinding solutions for large, multi-purpose venues enabled by marker-based tracking using QR codes. Visitors can access a venue map by scanning a QR code with their smartphone upon entering the venue to navigate to any Point of Interest (POI) with step by step directions, learn information about those POIs, and interact with rich AR content and experiences along the way.

The ARWay offering has an unlimited number of use cases for augmenting physical spaces in the metaverse, consisting of indoor navigation with AR activations to improve the visitor experience in large and complex spaces. With value propositions spanning multiple industries and use cases, ARWay leverages Nextech's 3D/AR technology solutions to new substantial markets, for

use by creators, brands, and companies.

The ARway Platform Includes:

Web Creator Platform

The Web-Based Creator Platform provides 'advanced' authoring capabilities compared to the mobile app, including the ability for creators to upload their own OBJ/GLB files, and create their own 3D objects. Placing content in a large area using only mobile app required the user to physically be in the specific location which was unscalable. The web studio allows the user to place and author content remotely and at scale.

Mobile App

With the ARway mobile app, anyone can spatially map their location within minutes using their smartphone, and populate it with interactive 3D content, augmented reality wayfinding, audio, text, images, and more. Nextech AR provides several pre-loaded 3D objects which creators can leverage to populate their metaverse.

Apple iOS - [click here](#)

Google Play Store - [click here](#)

ARwayKit SDK

The Software Development Kit contains code libraries and API information that allows developers to build their own white label & private label mobile apps on both iOS and Android leveraging ARway's technology and creator tools to build AR wayfinding and spatial experiences. Creators will be able to develop white label and private label apps and access ARway APIs to author maps using the Web Creator Portal. The SDK features the latest and greatest of the ARway mobile app.

Nextech AR Solutions

On October 26, 2022, ARway Corp. was spun-out from its parent Company, Nextech AR Solutions (OTCQX: NEXCF) (CSE: NTAR) (FSE: EP2). Nextech AR retained a control ownership in ARway Corp. with 13 million shares, or a 50% stake. Nextech AR Solutions is a Metaverse Company and leading provider of augmented reality ("AR") experience technologies and 3D model services. Nextech's AI-powered 3D modeling platform, "ARItize3D" has contracts with; AMZN, KSS, CB2, Genuine Parts & many others.
