Segmental Analysis:

1. By application, the cough treatment drug is the fastest growing segment and is expected to grow with a CAGR of around 3.7% during the forecast period. The guaifenesin is an active ingredient used in the cough medications, and it works by thinning the mucus in air passage and allows cough up of the mucus. The growing application of guaifenesin in cough treatment drugs in various forms such as syrup, tablet, granules, and others for pediatric and geriatric age group is boosting the growth in the market.

2. By geography, the North America is the fastest-growing region in the global guaifenesin market and is expected to grow with a CAGR of around 4.5% during the forecast period. The high demand of guaifenesin in this region is influenced by flourishing end-use industries and development in the pharmaceutical sector.

3. By end-use industry, the multispecialty hospital segment held the largest global guaifenesin market share in 2021, with a share of over 57%. The guaifenesin medication is used in the hospitals for treatment of cough, chest congestion, bronchitis, and others. The guaifenesin is high in demand for its application in mucus release, chest congestion medications, cough treatment drugs, and muscle relaxant sedative.

Competitive Landscape:

The top 5 players in the Guaifenesin Industry are -

1. Granules India Limited
2. Gennex Lab
3. Stellar Chemical Private Limited
4. Yuan Cheng Group

## 5. Seven Star Pharma Limited
