

# Advanced Analytics Market size is growing at a CAGR of 20.2%, to garner USD 184.4 million by 2031

*The rise in remote working policies and the increase in demand for overall advanced analytics have boosted the growth of the global advanced analytics market.*

PORTLAND, PORTLAND, OR, UNITED STATE, February 8, 2023 /EINPresswire.com/ -- As per the report, the global advanced analytics industry was pegged at \$29.5 billion in 2021, and is expected to reach \$184.4 billion by 2031, growing at a CAGR of 20.2% from 2022 to 2031. The report offers a detailed analysis of changing market trends, top segments, key investment pockets, value chain, regional landscapes, and competitive scenarios.

The rise in demand for work-from-home and remote working policies and the increase in demand for overall advanced analytics have boosted the growth of the global [advanced analytics market](#). However, challenges regarding data privacy and sharing hinder market growth. On the other hand, the integration of advanced tools including machine learning and data analytics would open new opportunities in the future.
