

Cannabis Delivery Mobile App Weed On Wheels™ Is All Set For The Big Launch

Weed On Wheels™ is an upcoming app that will deliver cannabis products to buyers at their doorstep.

PORTLAND, OREGON, UNITED STATES, February 8, 2023 /EINPresswire.com/ -- [Weed On Wheels™](#) is a mobile app that facilitates the delivery of cannabis. This is one of the reasons why people are referring to this app as "The Uber Eats Of The Weed Industry." The app will function on the same principle as traditional food delivery applications in the United States. This would help develop a user-friendly and transparent ecosystem for buying and selling cannabis products. The application will be made available to users in several states, such as New York, California, Michigan, Oregon, and other states, where cannabis for recreational purposes is legal.

[According to Statista](#), in the United States, sales of legal recreational cannabis are expected to reach an estimated 25 billion U.S. dollars by 2025. Catering to this rapid growth in the legal cannabis market, Weed On Wheels™ will be one of the first delivery-focused businesses to enter this market, giving it a huge first-mover advantage.

Weed On Wheels™ was established in Portland, Oregon, and is scheduled to debut in New York City in the summer of 2023. Using the app, consumers can have the desired quantity and type of cannabis product delivered to their doorstep.

The most significant benefit of using this app is that customers will not waste time waiting in line to place their orders because they will no longer need to do so. The price will be completely open and accessible to everyone, adding to the transparency and trust.

Moreover, the convenience of placing an order anytime makes Weed On Wheels™ a better

option than going into the market. The app's rating system for both the rider and the buyer in the app will also help develop an ethical ecosystem for buying and selling cannabis products. Also, by taking care of the age restrictions of the buyers, the app abides by the laws.

Currently, the app is successfully approved by the Google Play store for indexing, whereas the Apple iOS App Store approval is expected to be completed very soon. Weed On Wheels™ will be downloadable on smartphones within a couple of weeks. The app also offers employment opportunities to the riders. Downloading "Weed On Wheels™ Delivery Boy" from the app store, individuals can quickly sign up and become a driver for Weed On Wheels™.

The official website of Weed On Wheels™ provides all the necessary information for consumers to get started with using the app. Learn more at: <https://www.weedonwheelsapp.com>
