ATLANTA, GEORGIA, UNITED STATES, February 9, 2023 /EINPresswire.com/ -- [Your 3rd Spot](#), the new, innovative social dining experience located at The Works development in Atlanta's Upper Westside, hosted the star-studded celebratory wrap party for Netflix's upcoming science fiction film "The Electric State" on Saturday, Feb. 4. Among the guests in attendance were the movie's star Millie Bobby Brown, directors Anthony and Joseph Russo, and producers Anthony Vorhies and Patrick Newall.

The Electric State was filmed in many locations around Atlanta, and in addition to those in attendance at the wrap party, the film also features such star power as Chris Pratt, Stanley Tucci, Jason Alexander, Billy Bob Thornton, Anthony Mackie, Brian Cox, and Jenny Slate.

Dedicated to building community through 70+ social games, Your 3rd Spot offered many different game experiences on Saturday for the cast and crew as well as inventive small plates and craft beverages. The private party began with a specially themed welcome cocktail and offered a menu that included smoked wild mushroom bruschetta, grilled citrus-marinated chicken yakitori skewers, and arancini with caciocavallo, fennel pollen, and black truffle aioli.

During the evening, the cast and crew enjoyed all that Your 3rd Spot had to offer including pinball, tabletop and arcade games, bowling, darts and even curling. The cast also enjoyed some special amenities like an ice luge, a topiary dancer, and dancing in Your 3rd Spot's "cornhole arena." The film's star Millie Bobby Brown lounged in "cabanas" in the center of the venue and threw a few bowling balls on the lanes. Joe Russo, director of the film and "The Avengers" franchise, played and then signed the Avengers pinball machine in the venue's arcade area.

"Our mission is about making connections and building community," says founder Josh Rossmiesl. "We were honored to host the cast and crew of "The Electric State" and look forward to welcoming even more of the vibrant Atlanta television and film community in the near future."
