About ParulTV

Founded in 2018 by Parul Khanna, ParulTV is a YouTube channel that started with humble beginnings at just 10 followers. Over the years, however, it has grown into a massive platform with over 400K followers on social media and 32 million plus views. Today, ParulTV is a well-established channel that has become a trusted source of information and inspiration for millions

of people.

Parul Khanna was born and raised in Jalandhar, Punjab, by his two loving parents.

At the age of 19, he founded and established a unique computer security society i.e., "Third Eye Ethical Hackers Society." As a budding entrepreneur, showcasing his research on various domains spanning across information security, ethical hacking and network security to an audience comprising of top-level management, CTO's & CEO's, government personnel

and students at top universities in India was a mammoth task. Over time, due to the brilliant work done as a team, his organization became the best security services and investigation consulting organization focusing on cybercrime investigations and information security training. In 2013, his firm was acquired by a tech services provider in India for an undisclosed amount. Following the acquisition, Parul moved to Canada to pursue new opportunities.

Parul Khanna's practical experience and entrepreneurial background led to a special admission offer from Concordia University in Montreal, Canada in 2014. Despite not having an engineering degree, he was able to demonstrate his proficiency and potential in the field, leading to this exceptional opportunity. In 2017, he graduated from the university with a Master of Applied Sciences in Information Systems Security and was awarded multiple academic excellence scholarships totaling \$50,000 during his studies.

Following his graduation from Concordia University, Parul Khanna now resides and operates in Canada within the field of Cybersecurity. He is currently employed by a European bank and leverages his expertise in the development and implementation of comprehensive information protection strategies (DLP), SOC security investigations, incident response, security assessments, cyber risk advisory, and threat management.
