

Prodly DevOps Now Available on Atlassian Marketplace

Jira App Seamlessly Integrates Work Management Into Salesforce Release Process

PALO ALTO, CA, UNITED STATES, February 9, 2023 /EINPresswire.com/ -- Prodly, the [next-gen DevOps platform for Salesforce](#), today announced the general availability of Prodly DevOps for Jira. Prodly customers can now easily see every deployment associated with Jira issues and even initiate new deployments from within Jira.

Prodly DevOps, a low-code release management solution for Salesforce, enables customers to increase development productivity by 80 percent while reducing risk up to 30 percent. With Prodly's new Jira application, customers can eliminate the manual work necessary for keeping issues in sync with work in development to realize even greater efficiencies.

Prodly DevOps for Jira integrates Salesforce deployments with Jira issues to accelerate development.

“

With the ability to seamlessly manage and track changes from request through delivery, customers are able to automate more of the change management process and spend more time on development.”

Sean Crowley, CRO

“The Jira application has been one of the most requested features from customers and partners, so we’re excited to launch it on the Atlassian Marketplace,” said Sean Crowley, CRO at Prodly. “With the ability to seamlessly manage and track changes from request through delivery, customers are able to automate more of the change management process and spend more time on development.”

“On average, companies use 254 different SaaS applications to run their business, and it’s more complicated than ever for IT teams to manage their tech

stacks. Our mission is to take the complexity out of managing all enterprise software so customers can accelerate innovation without sacrificing the security and compliance controls

necessary to protect the business and its customers. Today is an exciting step forward in delivering on this vision, not just within Salesforce, but now in the Atlassian ecosystem, too,” explained Max Rudman, CEO of Prodlly.

Prodlly DevOps for Jira is immediately available for customers on the Plus and Enterprise editions of Prodlly DevOps. Customers can install [Prodlly DevOps for Jira on the Atlassian Marketplace](#).
