

Swedish startup revolutionize copywriting with AI

Marve writes unique, engaging, and high-quality copy or content: from long-form blog posts or landing pages to digital ads in seconds.

MALMÖ, SWEDEN, February 10, 2023 /EINPresswire.com/ -- AI has been on the rise in recent months, and it looks like it will only continue to grow in 2023. SinCode AI recognized this trend early and created a platform that helps businesses and individuals generate copywriting & content faster and more efficiently by automating writing.

We have all heard about [ChatGPT](#). They have improved ChatGPT with their own version: MarveChat! The improved version includes all the good things about ChatGPT, as well as new features like real-time Google data, ensuring the answers are accurate with the sources provided. Ask Marve for today's stock price, and Marve will write it. On top of this, it is less restricted, allowing users to ask it almost anything without limitation.

This groundbreaking technology has already made waves in the copywriting world and is set to revolutionize users' approach to writing in the next few years. With SinCode AI's platform, copywriters create more engaging content faster than ever before. This could be a game changer for businesses looking to maximize their online presence
