climatic conditions, men are also adopting skin care, sun care, and hair care services. Thus, professional beauty services help in treating damaged skin and provides prevention from dry & dull skin, which boosts their demand globally.

According to Hair and Beauty Industry Confederation Ireland (HABIC), expenditure on hairdressing related products and services in Ireland reached \$1.20 billion in 2019. This statistical data represents the global trends in the hair care service segment. Moreover, the shifting trend toward eco-friendly and natural cosmetic items and growing trend for online appointment booking platforms in professional beauty services [boost the demand](#) for the professional beauty services market.

According to U.S. Bureau of Labor Statistics, increasing demand for hair, skin, nail, and massage services from a growing customer population will drive the professional beauty service market. In addition, an expanded customer base to include more men and increased offerings of services will also contribute to faster employment in the industry and occupations providing these services, such as barbers, hairdressers, hairstylists and cosmetologists, manicurists and pedicurists, skin care specialists, and massage therapists. Numerous new personal care services have been popularized in recent years. In addition to basic manicures and pedicures, nail services include manicure styles, extensions, and a growing trend in artificial nails with various design offerings and adornments which surge the demand for the professional beauty services market.

Skin care services are focused on treatments to improve how the skin looks. New treatments are being introduced as part of a greater variety of facials that include services such as peels, microdermabrasion, and ultrasonic technology, among other services. Access to massage treatments has become available at places with increased foot traffic, such as at malls and at airports, where massage rooms enable travelers to get massages for stress reduction and relaxation. Additionally, eyelash extension is a relatively new trend, with more specialized professional beauty services offering this service exclusively, such factors surge the professional beauty services market share.

As per service, the professional beauty services market size is segmented into hair service (hair cutting, hair coloring, and others), skin service (skin care, injectables, makeup, and others), nail service (manicure and pedicure, nail extension, and others), and merchandise sales. Nail care has emerged as one of the most growing segments in the beauty industry just like the skin, hair, or makeup industry. The trend of frequent change in nail color, gel manicures, or extensions became a hit with celebrities and influencers and soon entered salons like a wave providing a significant opportunity to the professionals working their best for longer stability in the industry.

By gender, the market is further segmented into male and female. The female segment held the [major share](#) of the market in 2021 and is projected to maintain its dominance during the forecast period. In recent years, men have increasingly enjoyed treatments, including hairstyling, nail care, and facials, as they are also becoming more mindful of their appearance and well-being, results in the professional beauty services market growth.

According to age group, the market is segmented into 18 to 25 years, 26 to 45 years, and 46 years and above. 18 to 25 years segment is expected to grow with the highest CAGR of 5.2% during the forecast period. At this age group, the skin structure is heading toward adulthood and there are many hormonal changes of puberty that can affect the skin drastically, results in professional beauty services market trends.
