*Vivek Aher YashaaGlobal CEO*

We are excited to be expanding our operations to Jacksonville and look forward to serving our clients in the area.

In today's competitive digital marketing landscape, it is more important than ever for companies to create a client-centric approach. Unfortunately, many niche digital marketing companies are more focused on adding as

many clients as possible, rather than providing quality service.

At our company, we believe that quality should always come first. We only take on a limited number of clients per niche per location so that we can provide them with the individualized attention they deserve. This way, we can ensure that each and every one of our clients is happy with the results we achieve.

With over 5 years of experience in providing expert digital marketing services to businesses of all

"We're excited to be expanding our operations to Jacksonville," said YashaaGlobal CEO Vivek Aher. "This is a great location for us to better serve our clients in the Southeast." The technology services company, YashaaGlobal, is expanding its operations to Jacksonville. The move comes as a response to increased demand from clients during the COVID era. YashaaGlobal plans to add 30 new jobs in Jacksonville over the next three years.

YashaaGlobal has seen significant growth over the past two years, due in part to the increasing importance of digital marketing. This expansion into Jacksonville is just one way that the company is positioning itself for continued success in the future.
